OFF!

- The first book-length treatment of the Polish case worldwide
- A valuable addition to scholarship on populism, illiberal democracy, and anti-constitutional actions
- Provides the first detailed account of Poland's constitutional breakdown

Since 2015, Poland's populist Law and Justice Party (PiS) has been dismantling the major checks and balances of the Polish state and subordinating the courts, the civil service, and the media to the will of the executive. Political rights have been radically restricted, and the Party has captured the entire state apparatus. The speed and depth of these antidemocratic movements took many observers by surprise: until now, Poland was widely regarded as an example of a successful transitional democracy.

Poland's anti-constitutional breakdown poses three questions that this book sets out to answer:

What, exactly, has happened since 2015?

Why did it happen?

And what are the prospects for a return to liberal democracy?
